

ATA Spec 100 - Airplane (Turbine/Tuboprop)

ATA	Chapter	ATA	Chapter	ATA	Chapter	ATA	Chapter	ATA	Chapter		
<i>Aircraft General</i>		<i>Aircraft Systems</i>			<i>Structures</i>		<i>Powerplant System</i>				
00	Aircraft general	21	Air conditioning	35	Oxygen	50	Cargo and accessory compartments	71	Power plant	85	Fuel cell systems
04	Airworthiness limitations	22	Auto flight	36	Pneumatic	51	Standard practices and structures - general	72	Engine	<i>Miscellaneous</i>	
05	Time Limits / Maintenance Checks	23	Communications	37	Vacuum	52	Doors	73	Engine - fuel and controls	91	Charts / Wiring
06	Dimensions and areas	24	Electrical Power	38	Water / waste	53	Fuselage	74	Ignition	97	Wiring reporting
07	Lifting and shoring	25	Equipment / Furnishings	39	Electrical - electronic panels and multipurpose	54	Nacelles / pylons	75	Bleed air / Air		
08	Levelling and weighing	26	Fire Protection	40	Multisystem	55	Stabilizers	76	Engine controls	<i>Military Chapters</i>	
09	Towing and taxiing	27	Flight Controls	41	Water ballast	56	Windows	77	Engine indicating	92	Electrical power multiplexing
10	Parking, mooring, storage; return to service	28	Fuel	42	Integrated modular avionics	57	Wings	78	Exhaust	93	Surveillance
11	Placards and marking	29	Hydraulic Power	44	Cabin systems			79	Oil	94	Weapon system
12	Servicing	30	Ice and rain protection	45	Central maintenance systems	<i>Propeller</i>		80	Starting	95	Crew escape and safety
13	Hardware and general tools	31	Indicating / recording systems	46	Information systems	60	Standard practices - Propeller	81	Turbocharging	96	Missiles, drones and telemetry
15	Aircrew information	32	Landing gear	47	Inert gas system	61	Propellers / propulsors	82	Water injection	98	Meteorological and atmospheric research
16	Change of role	33	Lights	48	In flight fuel dispensing			83	Accessory gear box (engine driven)	99	Electronic warfare system
20	Standard practices - airframe	34	Navigation	49	Airborne auxiliary power (APU)			84	Propulsion augmentation
